This is optional because you can copy the files onto your hard drive and then on to the OS DOWNLOAD USB flash drive again whenever you need it.. Remove the USB at the black screen Not before, and not after Now you have a USB Flash drive with OS Mountain Lion That was the hard part completed, now the easy stuff.. If the screen is black, pull out the flash drive Dont wait, just pull it out If you wait it will start the installation and delete the files from the USB and youll have to do it all again.
